

# Repeat Last

## Access:

Keyboard shortcut: **SHIFT + R-KEY**

Mode: All Modes

Panel: None

Menu: None

## Description:

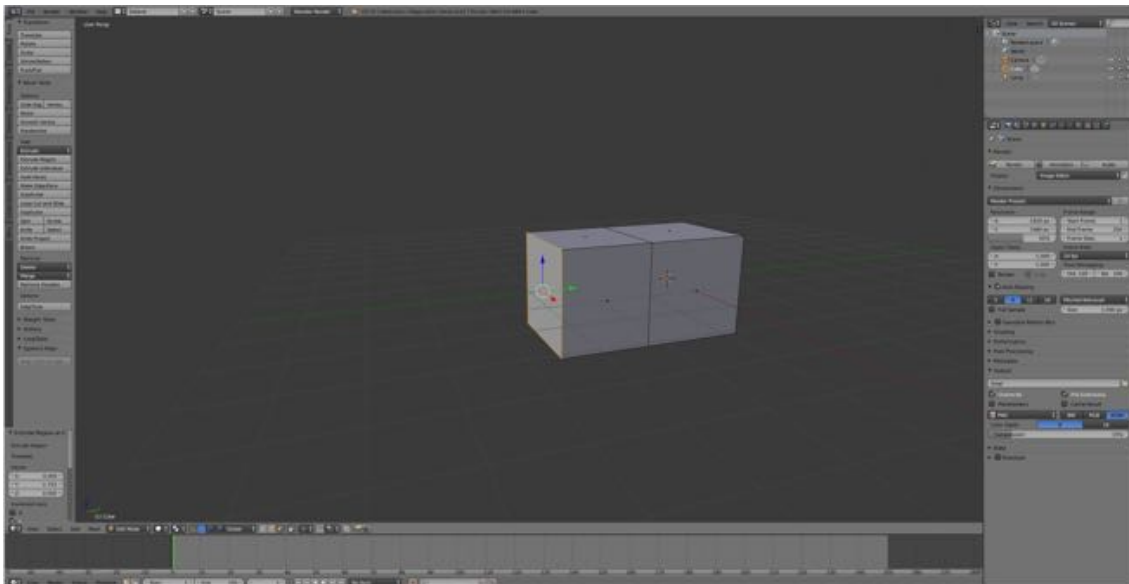

This keyboard shortcut will repeat your last action.

## To Use the Tool:

- Perform an action.
- Press SHIFT + R-KEY.

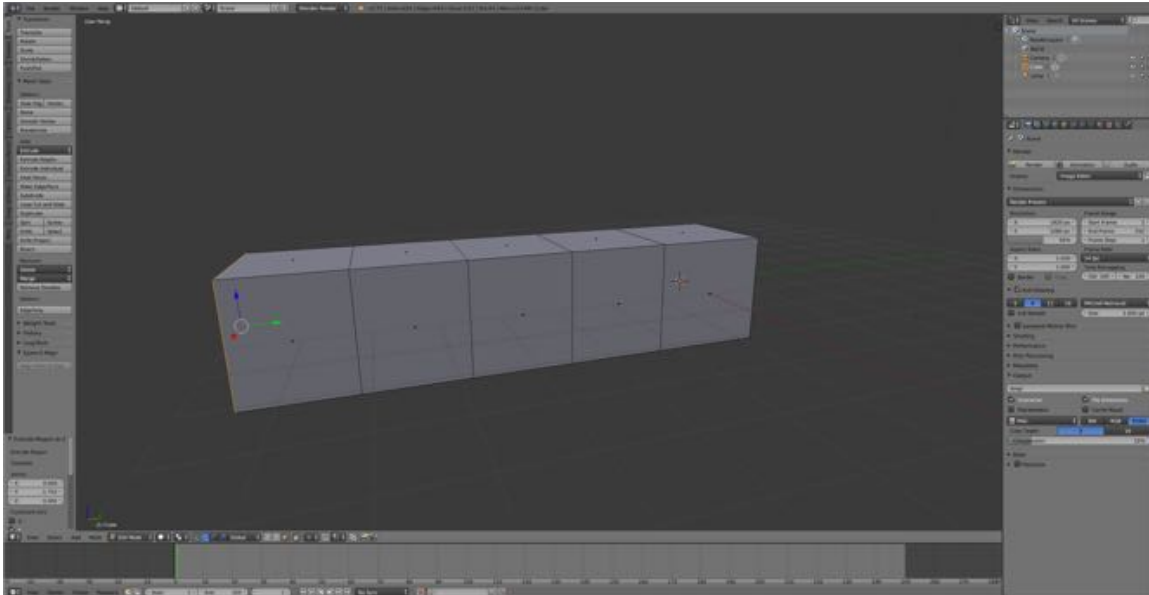

## Let's Try It:

- **Open Blender** and **switch** to 3D Editor's **Edit Mode** and **Face Selection Mode**.
- **Perform an action**, such as **selecting the left face of the default cube** and **extruding** in the **Y-direction** (**E-KEY** > **Y-KEY** > **Drag** > **LMB**).

160

- **Press Shift + R-KEY three times.**

161

### **Additional Comments:**

If I hadn't been reading Blender's manual to write these tutorials I don't think I would have ever come across this.
